American Tool and Die,

I would like to thank you for your business, when I worked for Lydall. Your company was of great service for the projects that we were working on, at that time, the Mercedes Benz, (251 and 164 programs).

I now work for Toyotetsu – Mid – America, as the Die Maintenance Manager/Stamping Engineering Manager. I look forward to doing business with your company again in the near future.

Best Regards,

Robert Wise
